An effective approach for determining a value is to send out a survey to your current customers. If these customers have already purchased an book from you, ask for their opinion in terms of price. Do this by making a gross sales web page for the brand new book, however don't embrace a price on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to test out prices by creating a variety of duplicate gross sales pages with different prices on every page. Ensure your sales copy is strictly the same on each web page, and consists of your selling-handle sentence. Then figure out for every page the conversion ratio between visitors to your site and gross sales of your book. It will tell you what your optimum worth is.

In the end, in case you've written a e-book that solves a drawback or presents a new technique, your book will usher in both site visitors and profits.
