Apart from selling your books assiduously on-line, there are several different strategies that may show you how to sell extra books.

One is to give something away without spending a dime with your book, equivalent to a valuable bonus item. Or bundle several ebooks below one price, which lowers the worth for each e-book if they have been sold separately.

An efficient method for figuring out a worth is to send out a survey to your present customers. If these customers have already purchased an book from you, ask for their opinion in terms of price. Do

this by making a gross sales web page for the brand new e book, but do not embody a value on that page. Instead, add quite a few hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

Another technique is to check out costs by creating a number of duplicate sales pages with different costs on each page. Be sure that your sales copy is strictly the identical on each page, and includes your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your web site and sales of your book. It will tell you what your optimum worth is.

In the end, in the event you've written a e-book that solves a drawback or presents a new method, your book will usher in both traffic and profits. So remember to write that promoting-handle sentence that sums up what problem your guide solves and what the benefits of your 122 book shall be to the purchasers who buy it. And then watch your market come to you!
