An efficient method for figuring out a price is to ship out a survey to your current customers. If these clients have already purchased an ebook from you, ask for their opinion when it comes to price. Do that by making a gross sales web page for the new book, but do not embody a price on that page. As a substitute, add quite a lot of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another strategy is to test out prices by creating a variety of duplicate sales pages with totally different prices on every page. Ensure your gross sales copy is exactly the similar on each page, and contains your promoting-handle sentence. Then figure out for each page the conversion ratio between visitors to your website and gross sales of your book. This will let you know what your optimum price is.

In the end, when you've written a e book that solves a downside or presents a brand new approach, your e-book will usher in both site visitors and profits.
