One is to present something away free of charge with your book, similar to a priceless bonus item. Or bundle several ebooks below one value, which lowers the value for each e book in the event that they had been sold separately.

An efficient technique for figuring out a price is to ship out a survey to your current customers. If these clients have already purchased an e book from you, ask for their opinion in terms of price. Do that by making a sales web page for the new e-book, but do not embody a value on that page. Instead, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to test out prices by creating a number of duplicate sales pages with completely different costs on every page. Be sure your sales copy is strictly the identical on each

web page, and includes your selling-deal with sentence. Then figure out for every page the conversion ratio between guests to your web site and sales of your book. This may tell you what your optimum price is.

Ultimately, should you've written a e book that solves a problem or presents a brand new approach, your guide will herald each site visitors and profits. So you'll want to write that promoting-deal with sentence that sums up what downside your ebook solves and what the advantages of your 2140 book will likely be to the customers who purchase it.
