An efficient method for figuring out a price is to send out a survey to your present customers. If these prospects have already purchased an e book from you, ask for their opinion in terms of price.

Do this by creating a sales web page for the new e book, but don't include a price on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to test out costs by creating a number of duplicate gross sales pages with different prices on every page. Make certain your sales copy is strictly the similar on each page, and includes your selling-handle sentence. Then work out for each page the conversion ratio between guests to your web site and gross sales of your book. This may let you know what your optimum value is.

Ultimately, if you happen to've written a e book that solves a downside or presents a new technique, your e book will herald each site visitors and profits. So be sure to write that selling-deal with sentence that sums up what drawback your book solves and what the advantages of your 2560 e-book will probably be to the shoppers who purchase it.
