An effective approach for figuring out a price is to ship out a survey to your present customers. If these customers have already bought an e book from you, ask for their opinion by way of price. Do that by creating a sales web page for the new ebook, but do not include a price on that page.

Instead, add quite a few links to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

Be sure that your gross sales copy is strictly the same on every page, and contains your selling-handle sentence. Then figure out for every web page the conversion ratio between visitors to your web site and gross sales of your book. This can inform you what your optimum price is.

Ultimately, should you've written a e book that solves a drawback or presents a brand new technique, your e book will bring in both site visitors and profits.
